FOR IMMEDIATE RELEASE

Hill International Reports 2019 Second Quarter Financial Results

- Adjusted EBITDA of \$4.9 million up from \$2.4 million in prior quarter
- Net income of \$1.6 million, first profitable quarter since 2016 second quarter
- New bookings in 2019 remain strong at approximately \$295 million through June 30
- Book-to-burn ratio at 1.9 for first 6 months of 2019
- Backlog steady at \$824 million

PHILADELPHIA, PA - August 7, 2019 - (GLOBE NEWSWIRE) - Hill International, Inc. (NYSE:HIL) ("Hill" or the "Company"), the global leader in managing construction risk, announced today that it filed its Quarterly Report on Form 10-Q for the second quarter ended June 30, 2019. This release will be followed by a conference call on August 8, 2019 at 8:30 am EDT with Hill International Chief Executive Officer Raouf Ghali and Senior Vice President and Chief Financial Officer Todd Weintraub.

Mr. Ghali commented, "The Company's turnaround continued during the second quarter of 2019, with returning profitability, steadily growing bookings, and a strong book-to-burn ratio. Given the many opportunities we are currently pursuing, and our continued focus on controlling costs, I expect increased results for the third quarter and beyond. I look forward to providing further details of our performance during our call."

Second Quarter Financial Results

Note that the Company believes a comparison of 2019 results to the comparable 2018 period is not meaningful due to the high level of non-recurring items throughout 2018. The Company believes a more meaningful comparison is a sequential comparison to the immediately preceding quarter to demonstrate the Company's progress relative to its plan.

Hill's consulting fee revenue ("CFR") was \$77.0 million for the quarter ended June 30, 2019 compared to \$79.0 million for the quarter ended March 31, 2019. Total revenue for the quarter ended June 30, 2019 was \$98.3 million, compared to \$98.7 million for the quarter ended March 31, 2019.

The Company's operating profit for the quarter ended June 30, 2019 improved to \$4.6 million compared to \$0.5 million during the first quarter of 2019. Net income for the quarter ended June 30, 2019 was \$1.6 million, or \$0.03 per diluted share, compared to a net loss of \$2.1 million, or \$0.04 per diluted share, for the quarter ended March 31, 2019.

Mr. Weintraub added, "I'm thrilled that we are now completely done with restructuring and restatement costs and have lowered our cost base by 25%. We had positive net income for the first time since mid-2016. We expect to show improved performance in future quarters as new bookings translate into higher CFR and we keep our costs inline."

Selling, general, and administrative ("SG&A") expenses decreased to \$27.4 million in the quarter ended June 30, 2019 from \$31.3 million in the quarter ended March 31, 2019. SG&A included expenses related primarily to the Company's implementation costs associated with the previously disclosed Profit Improvement Plan ("PIP"). The PIP was completed during 2018 with some costs related to the PIP recognized in the first two quarters of 2019. All PIP-related costs were finalized in the quarter ended June 30, 2019 and resulted in a reversal of over-accrued PIP-related costs. SG&A expenses were also impacted by non-cash stock compensation and unrealized foreign exchange movements in both quarters.

Adjusted EBITDA (as defined below), which excludes the effects of the SG&A items specified above, improved to \$4.9 million for the second quarter of 2019, compared to \$2.4 million for the first quarter of 2019 (see EBITDA and adjusted EBITDA table below).

EBITDA

Earnings (loss) before interest, taxes, depreciation and amortization ("EBITDA") from continuing operations is not a measure of financial performance under generally accepted accounting principles ("GAAP"). EBITDA, in addition to operating profit, net income, and other GAAP measures, is a useful indicator of Hill's financial and operating performance and its ability to generate cash flow from operations that are available for taxes and capital expenditures. Investors should recognize that EBITDA might not be comparable to similarly-titled measures of other companies. This measure should be considered in addition to, and not as a substitute for or superior to, any measure of performance prepared in accordance with GAAP.
